FAQs

- Q: When does the product expire and how long can I keep it on the shelf?**
A: See packaging for expiration date.
- Q: What is the best way to apply the product?**
A: Fill starter tank half full. Add the crop specific Rhizolizer Duo In-Furrow product at a rate of 1.0 fl. oz./acre. Fill remaining amount of starter to the desired level of the tank.
- Q: Can the Rhizolizer Duo In-Furrow for Legumes product be used on any legume crop?**
A: Yes, the product is labeled for use across all legume crops.
- Q: Is there an inoculant present in the Rhizolizer Duo In-Furrow for Legumes product?**
A: No, Rhizolizer Duo In-Furrow for Legumes does not contain any Rhizobia inoculants. This product supports nutrient availability and uptake and augments natural microbial activity in the rhizosphere.
- Q: What should I do if I exceed the tank mix restrictions?**
A: Fresh product would need to be added into the tank mix.
