Disposal: Dispose of all waste in accordance with local, state, and federal regulations.

Keep Out of Reach of Children: No hazard symbol. This substance does not meet criteria for classification as a dangerous substance. Wear eye goggles and gloves.

FAQs

Q: When does the product expire and how long can I keep it on the shelf?

A: See packaging for expiration date.

Q: What is the best application method?

A: Rhizolizer Duo WP is a soluble wettable powder that goes directly into the tank to be applied via irrigation.

Q: Is it safe for me to put Rhizolizer Duo WP into a tank mix with other products?

A: It depends on the other chemicals in the tank. Do not tank mix with UAN28, UAN32, high sulfur-containing fertilizers or other sulfonated products. Full product compatibility information can be found on Locus AG's website or via the QR Code below.

Q: How do I ensure even distribution across my field?

A: Fill your mix tank halfway, add in the appropriate amount of Rhizolizer Duo WP, then add the remaining water. Mix well. Keep agitation on throughout the application, if possible.

Q: Can I use Rhizolizer Duo WP products interchangeably?

A: No, the products and their application rates are formulated specific to the crops listed on their label. Dispose of packaging per state regulatory guidelines
